

K1ECI10VV

INDUCTION PASS-THROUGH RANGE 4 PLATES + OPEN CABINET

PRODUCT DESCRIPTION

Stainless steel frame. Athermic thermoset plastic knobs.

Glass ceramic plate with a thickness suitable to transmit the heat. **Designed cooking areas** marked by pots suitable for use.

Perfectly smooth glass ceramic surface for **easy cleaning**.

Wide work surface: shifting pots and pans becomes faster and more comfortable.

Remarkable time and power savings because of halved cooking times and energy consumption against traditional cooking systems. Continuous power control.

Possibility to work properly with **any kind of pots suitable for induction:** made of iron, cast iron or other ferromagnetic material.

Constant energy efficiency, even if utensils of different shapes are used.

A better work environment because of **lower heat losses**.

Increasing the user's safety: only pots become hot while cooktops stay cold and the possibility to get burned is strongly reduced.

Height-adjustable stainless steel legs.

Accessories available **on demand**.

TECHNICAL SPECIFICATIONS

Width: 1100 mm

Depth: 900 mm

Height: 850 mm

Weight: 125 kg

Volume: 1.31 m³

Electrical power: 28.00 kW
